

It is nice to be independent and live on your own but it also has a downside to it; it means you have to cook your own food whether you like it or not. Although some of the best chefs in the world are men, many bachelors simply don't like cooking but are forced to because it is almost impossible to live on fast food only. With this book, it doesn't matter if you already know how to cook or don't like it, they are easy to prepare and all of them can be prepared in less than 15 minutes. Even though they are quick and easy, they are still delicious. The instructions are clear and the ingredients simple, so all you need to do is choose the recipe that you want to try first and head to your kitchen. Once you have mastered your first recipe, I assure you that you will be more than excited to try your hand at another one and impress your friends and maybe your girlfriend, if you have one. This book isn't only for bachelors. If you simply want a nice homemade meal but you don't want to stand in the kitchen all day, here are 18 of the best main dish recipes that you can make in record time. So roll up your sleeves, get into the kitchen, and work your magic! © 2016 All Rights Reserved !
