

The truth about the product that ruined two lives, and will change millions more... What makes a hit product? More than just luck. It takes a team of dedicated, brilliant minds, and a whole lot of trial and error. Sometimes, more error than anything. Ahead of its official unveiling in September, learn how a group of misfits “ from within Apple and beyond “ came together to design the device the world has been clamouring for for years: the iWatch. This is the never-before-told story from the front lines, from engineering challenges to software glitches, from personality clashes to catastrophic leaks to the press... the drama that went into the making of the worlds first wearable computer. If you think the iWatch is exciting, just wait until you hear how it came to be...
