

This SHORT pamphlet style book simply outlines 55 Features of Top Selling Board Games. Not a book to take on a long journey or to spend long hours reading, this is nevertheless full of biting, insightful analysis of what it takes to have a top selling board game from someone who has been there and done it, having managed sales of in excess of 15 million Board Games, and worked on and / or with the majority of best selling Games. This book is best used as a quick reference guide for those interested in the formula for sales success in the Board Games industry. This is overtly a commercial book - its whole point is to list features of Board Games that SELL. Please note by omission, this is not a book about the benefits of Board Games play (which are substantial) or about how to make games that are great fun or technically robust. It unashamedly highlights purely features that are all about the hard commerce involved in the Board Games industry. This book will not work for you if:- You value verbosity and length in books you read versus concise reference - to reiterate this is a very short pamphlet style book).- You are close minded and wont take on board tips from a genuine Board Games expert.- You are interested in aesthetics and gameplay mechanisms over shifting boxes. If you fall into one of these Categories, please save your money and dont buy the book.

Decorating Pack & Guide (Vacation Bible School 2013: God's Backyard Bible Camp), Culture and Styles of Academic Discourse (de Gruyter Expositions In Mathematics), Patient teaching: Theories, techniques, and strategies, Welcome to the Jungle: A Success Manual for Music and Audio Freelancers (Music Pro Guides), The New Church Hymnal, The Things I Never Told You,
