

We long for heroes and have too few. Nelson Mandela, who recently celebrated his ninety-first birthday, is the closest thing the world has to a secular saint. He liberated a country from a system of violent prejudice and helped unite oppressor and oppressed in a way that had never been done before. Now Richard Stengel, the editor of Time magazine, has distilled countless hours of intimate conversation with Mandela into fifteen essential life lessons. For nearly three years, including the critical period when Mandela moved South Africa toward the first democratic elections in its history, Stengel collaborated with Mandela on his autobiography and traveled with him everywhere. Eating with him, watching him campaign, hearing him think out loud, Stengel came to know all the different sides of this complex man and became a cherished friend and colleague. In *Mandelas Way*, Stengel recounts the moments in which the grandfather of South Africa was tested and shares the wisdom he learned: why courage is more than the absence of fear, why we should keep our rivals close, why the answer is not always either/or but often both, how important it is for each of us to find something away from the world that gives us pleasure and satisfaction-our own garden. Woven into these life lessons are remarkable stories-of Mandelas childhood as the protege of a tribal king, of his early days as a freedom fighter, of the twenty-seven-year imprisonment that could not break him, and of his new and fulfilling marriage at the age of eighty. This compact book is profoundly inspiring. It captures the spirit of this extraordinary man-warrior, martyr, husband, statesman, and moral leader-and spurs us to look within ourselves, reconsider the things we take for granted, and contemplate the legacy well leave behind.
